

Festive creations at the Village Hall ...

Word has clearly spread how good the classes are and we had to open the partition in the Hall to accommodate the 22 attending the wreath making class.

We arrived with bags of foliage and lots of enthusiasm. Marilyn gave us a demonstration and made it look so easy. She was then on hand to offer advice and guide those who needed it, moving the odd piece of foliage to transform the look.

The evening flew by and the result was a splendid display of wreaths - all very different and all very good. Well done to everyone who took part.

Photograph complete, Marilyn explained what we would be doing at the next class.

The follow up class, two weeks later, concentrated on making table decorations. Marilyn explained how to create a table decoration with just wire and some ribbon.

Two pieces of wire are transformed with decorative ribbon. Simple and so effective.

The finished results – an array of colourful designs fit for any table at Christmas.

The next classes will be at Easter, if you are interested in joining us, look out for the notices or contact june_leach48@yahoo.co.uk or 07500 250969 for further details.
