

A circular route around Chelford took the walkers past lakes, down leafy lanes and across fields.

The walkers get a few recces under their belt ..

January is traditionally a month when the walk organisers take the opportunity to plan the calendar and complete a few recces in readiness for the coming months.

Walk leader, Barbara Wilson explained how every walk offered by the WI group is fully explored in terms of timing, terrain, facilities, parking and walking ability, thereby making it fully inclusive.

This month Barbara, accompanied by a few keen WI members, completed circular walks in Sandiway and one nearer home in Chelford, both walks proved enjoyable and will certainly be added to the list.

The walking group aim to meet once a month, the dates vary, as do the routes, so as to ensure they are available to as many members as possible.

For more details about any of our walks just contact

We make every effort to ensure our walks are safe and ask that all walkers assume responsibility for themselves .

2022 is a special year as we celebrate our centenary. We have lots of activities planned throughout the year. Keep checking the village notice boards for more details.
